

CLLD EMFF FLAG

CÔTE BASQUE - SUD LANDES

Area, fisheries, strategy and activities

FARNET seminar on circular economy

Saint-Jean-de-Luz, 21 November 2018

François Gallet & Nicolas Susperregui, CIDPMEM 64-40 fisheries committee, FLAG animateurs

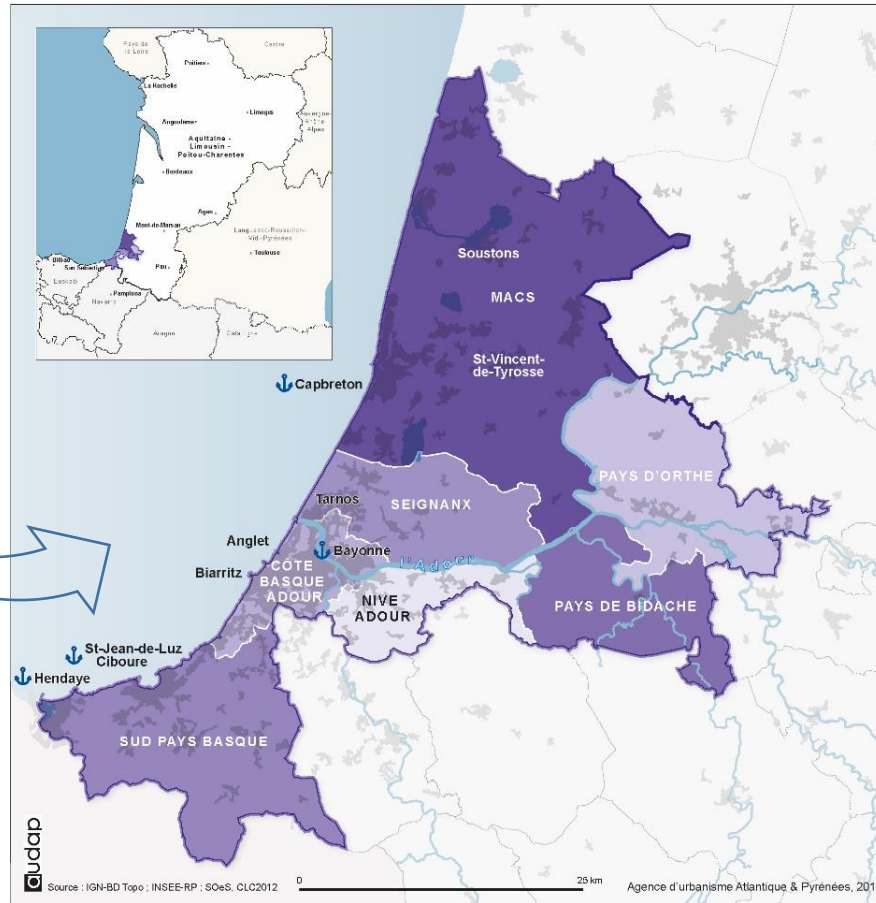

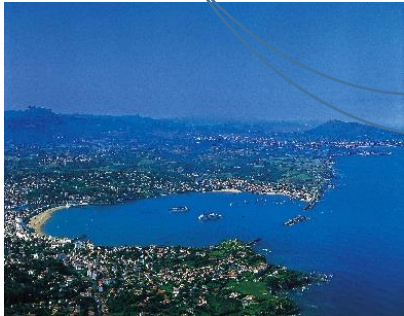

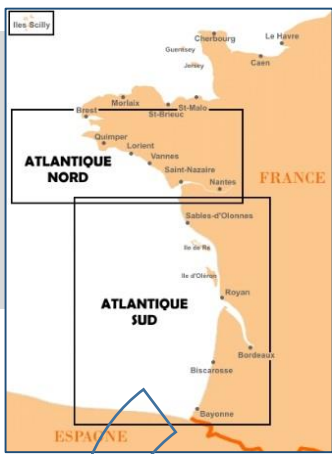

Programme implemented by:

With the financial support of:

Area of the Côte Basque - Sud Landes FLAG

- 76 municipalities, of which 46 in Landes and 30 in the Basque coast.
- An area of 1 568,3 km².
- A population of 317 576 inhabitants (INSEE data, 2013).
- Average population density over 200 persons/km².

Inter-departemental, bordering with Spain, at the heart of the Aquitaine-Euskadi Euroregion.

A coastline of 85 km.

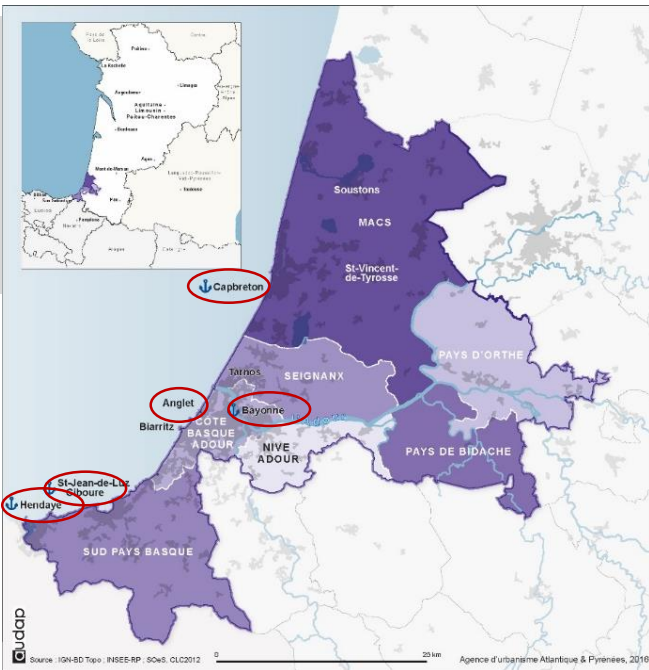

Very rich in terms of landscape and nature.

Strong demographic growth (20% population increase since 1999).

Strong influence of cities, and although **agriculture and fisheries remain very dynamic**, the main development of the area comes from residential economy.

Closeness of the sea has an important impact on many economic sectors.

The fisheries sector in the Côte Basque - Sud Landes FLAG area

Ca. 100 fishing boats in the harbours of Capbreton, Bayonne-Anglet and Adour estuary, Saint-Jean-de-Luz/Cibouire and Hendaye.

Most of the fleet composed of **boats under 12 m**, equipment of **small-scale & coastal fisheries**.

In the area all fishing techniques are used: fishing nets, longlines, trawl, pole & line tuna fishing, purse-seines, eel fishing, traps, seaweed.

One fish auction in the harbour of Saint-Jean-de-Luz/Cibouire, the largest auction in the region of **Nouvelle-Aquitaine**, largest in France for hake, 5th auction in France in terms of value, 6th in terms of volume.

Local fisheries sector accounts for 250-260 jobs at sea and 340-500 land-based Jobs in the area .

Challenges for the local fisheries sector

- How to make the profession more attractive for the young?
- How to facilitate the creation and transfer of businesses?
- How to create more value added from its products?
- How to better communicate about the sector?
- How to valorise linkages between fisheries, tourism and maritime heritage?
- How to protect and valorise our environment and maritime heritage?

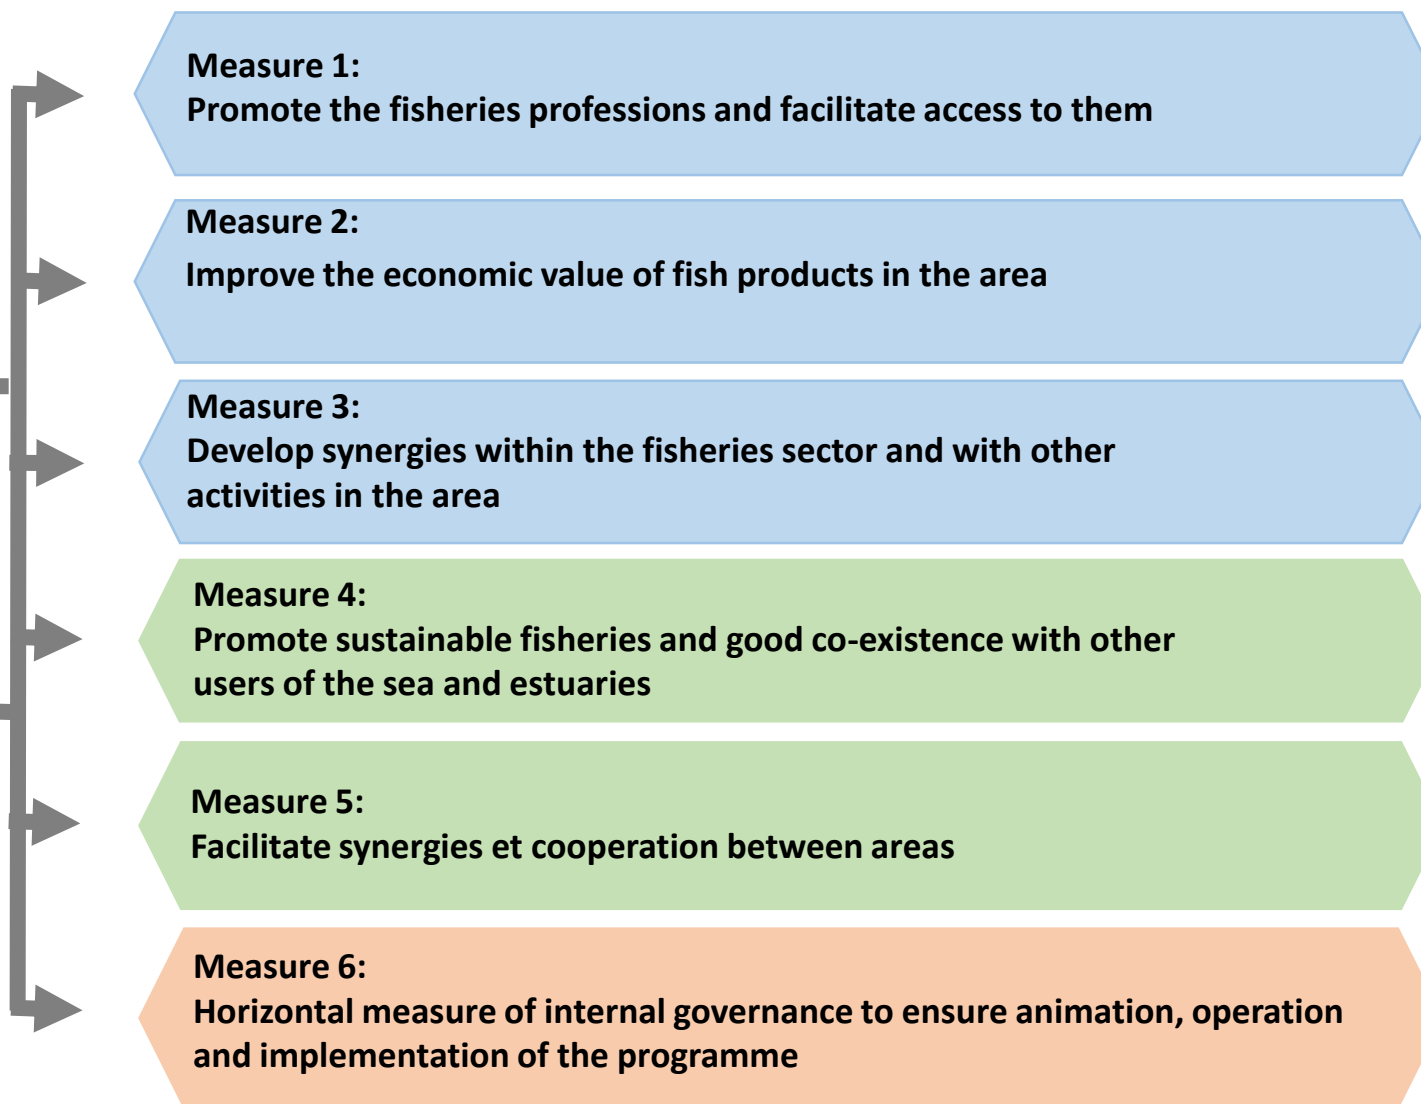

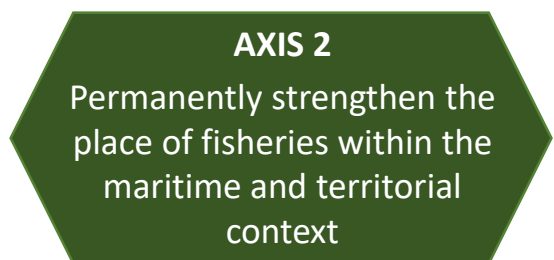

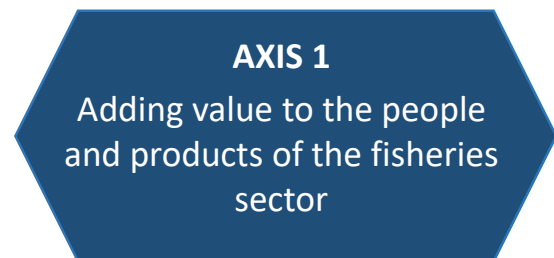

... from reflection carried out prior to CLLD strategy development

Implementation of the FLAG strategy

Operation and animation activities are managed by the Inter-departmental Fisheries Committee of the region Pyrénées-Atlantiques/Landes.

The selection committee, i.e. decision-making body of the FLAG, is composed of 24 members, including: local fisheries organisations, harbour authorities, public bodies, training organisation, associations dealing with environment, heritage, leisure, tourism actors.

Total budget: 2,1 M€
of which 1,05 M€ from national and regional budget, and 1,05 M€ from EMFF.

Examples of projects under way

Around fifteen project applications submitted ...

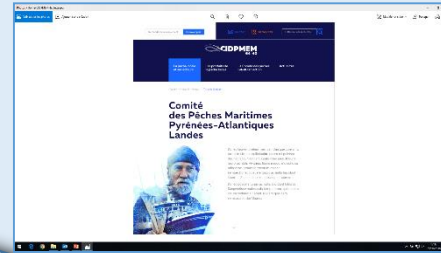

Study of the socio-economic importance of fisheries for the area

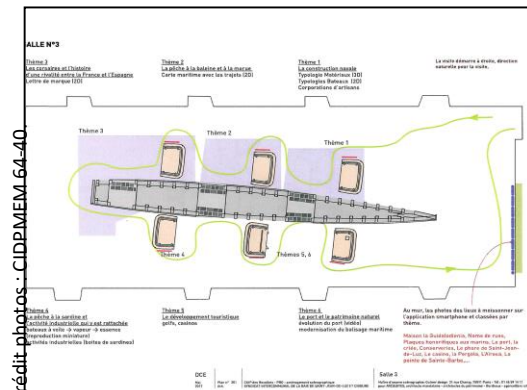

Study to create a service centre for fishermen of Capbreton

Creating a website for the Fisheries Committee

Promoting the fisheries sector and its products towards wider audiences at the Basque Salon in Bordeaux

Developing an exhibition to promote local maritime heritage

... and around 10 more in preparation

Examples of projects under way (cont.)

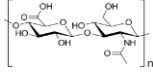

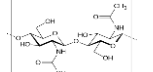

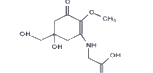

... of which three so far related to circular economy

An experimental workshop of used fishing equipment, facilitating access to labour market

Developing and testing solutions for upgrading used fishing nets

Biomolécules d'Origine Marine	Méthodes de Extraction
Acide Hyaluronique Globes oculaires, Le thon 	Hydrolyse Chimique Hydrolyse Enzymatique Ultrasound Décharges haute tension Grinding ☐
Chitine & Chitosane Carapaces de crabes 	
Collagène Peaux de poisson 	
Mycosporines Algues rouges 	
	Leurs Applications
	Cosmétique Médical Pharmaceutique Plastiques Revêtements Traitements de l'eau

Valorisation of marine resources and their by-products to produce biopolymers and molecules

... with very promising perspectives
