AE2020 ONLINE

Aquaculture Europe 2020 will take place ONLINE from April 12-15, 2021.

The basic format of the event will stay the same as 'normal' Aquaculture Europe meetings, with morning plenary sessions and then breakout parallel sessions for oral and Eposter presentations. The parallel sessions will be made up of shorter slots for pre-recorded video presentations of the oral presentations and with time allocated to review Eposters and for Q&A.

AE2020 ONLINE will also feature an e-Market, where vendors and media partners will have a dedicated place online to present their products, link to their website and have a chat-box to interact with attendees and set

up meetings. Two categories of e-Market participation are proposed. The first is "VENDOR" with extensive benefits. The second is "HEADLINE VENDOR" with more enhanced opportunities. Details of these are provided on the AE2020 web site.

All presentations (oral videos and Eposters) and the e-Market will be available for a 30-day period after the event for attendees to see online. This ensures that attendees will not miss a presentation that they would have otherwise missed with a busy programme in a physical event. During that period, contact with the presenter will also be facilitated, complementing the live Q&A during the conference days.

List of sessions that will be open for online abstract submission. This list could be subject to change.

- Climate change
- Shellfish restoration and conservation
- Aquaponics
- Integrated Multitrophic Aquaculture (IMTA)
- Circular economy, resource reuse and environmental footprint
- Offshore aquaculture and multiuse of space
- Recirculating Aquaculture Systems (RAS)
- Precision aquaculture (sensors, AI, Internet of things, Big data)
- Hatchery technologies and practices
- Nutrition: Functional aquafeeds
- Nutrition: Physiology and requirements
- Selective breeding
- Genomic research, tools and applications
- Fish welfare
- Parasites
- Disease prevention and treatment
- Mollusc
- Macroalgae
- Microalgae
- Emerging species
- Percid fish
- Food quality, certification and organics
- Processing, co-products and value addition
- Markets and consumers
- Education, knowledge management, transfer and extension networks

RAS@EAS

EAS will also organise the planned RAS@EAS event as a one-day online workshop on April 12 before the conference starts. The workshop theme “**Creating an Optimum Environment**” will be a panel-based discussion organised in three sessions addressing three key questions: “How do we best approach disinfection”? “Where are we going with monitoring & autonomy”? and “What are the most

problematic interactions between fish & their environment”? Each session will have an introductory presentation, followed by a moderated panel discussion.

Registration for this event can be made separately, but all those registered for the full AE2020 event will be able to attend.

The AE2020 Student Spotlight Award

During the opening plenary session, and as done for the first time at AE2019 in Berlin, we will have the EAS Student Spotlight Award, with short pitches from the finalists and where participants will decide the winner.

The finalists will be selected from abstracts submitted by students before the January 31 deadline.

Registration rates

	Register by Feb 28	after Feb 28
Members*	€ 125	€ 175
Non-members	€ 225	€ 275
Students**	€ 30	€ 50

Registration for the RAS@EAS event can be made separately: free for EAS members and € 100 for non-members. All those registered for the full AE2020 event will be able to attend.

*To qualify for Member Rate you must be an EAS or WAS member in good standing

**include copy of valid student ID

AE2020 Steering Committee

Chair: Gavin Burnell, (EAS President and UCC, Ireland)
Members: Hervé Migaud (Univ. of Stirling, UK), Michael New (UK), Alistair Lane (EAS, Belgium), John Cooksey (MFC, USA), Mario Stael (MarEvent, Belgium)

AE2020 Programme co-chairs

Gavin Burnell (UCC, Ireland), Nikos Papandroulakis (HCMR, Greece)

Please submit your abstract online: www.aquaeas.org

There you will find guidelines for abstract preparation and a sample.

If you are unable to submit online, please contact the Aquaculture Europe conference manager at worldaqua@was.org or fax +1 760 751 5003.

AE2020 Online—Overview

Monday, 12th April

RAS@EAS Workshop 09.00-16.30

Tuesday, 13th April

Plenary session & EAS Student Spotlight Award 09.00-09.45

Sessions 10.00-12.30

e-Market 10.00-18.00

Break 12.30-14.00

Sessions 14.00-17.00

Eposters available all day

Wednesday, 14th April

Plenary session 09.00-09.45
